DDD Token – Direct Democracy of Germany (Silver Token)
Version 1.0 / Date: April 2025

Introduction

The world is facing profound challenges: economic uncertainty, inflation, geopolitical tensions, and growing skepticism toward traditional financial systems are unsettling investors worldwide. The DDD Token (Direct Democracy of Germany) is our answer. It serves as a pilot project for the introduction of the German Value Coin (DDD Gold Coin) and aims to combine trust in the German economy, stability for investors, and the promotion of direct democracy. Initiated by the DDD Party and developed by MyAirProtector GmbH, the DDD Token – and its successor, the DDD Coin – unites political responsibility, technological innovation, and entrepreneurial transparency.

Vision & Mission

Vision: Establishment of a stable, transparent digital store of value that builds trust in the German economy and appeals to international investors.

Mission: Through the DDD Token, we are creating a globally tradable, decentralized silver token that serves as a secure means of payment, a store of value, and a foundation for the future DDD Gold Coin.

The Role of MyAirProtector GmbH

MyAirProtector GmbH (MAP), founded during the COVID-19 pandemic, initially developed innovative UV-C air disinfection devices. Today, MAP focuses on diversification: in addition to air purification devices, MAP offers comprehensive IT and financial services, investment management, and blockchain-based solutions. The DDD Token project is managed and overseen by MAP, supported by the DDD Party.

Token Overview

<u>Feature</u>	<u>Value</u>
Token Name:	DDD Token Silver
Blockchain:	ERC-20 (Ethereum) / BEP-20 (Binance Smart Chain)
Total Supply:	21,000,000,000 tokens (fixed)
Color:	Silver
Max. Tokens per Wallet:	1,000 tokens (initial, expandable)
Transaction Fee:	0.2%
Holder Distribution:	0.8% per transaction
Token Burn:	None
Mining:	Not possible (fixed supply)
Governance:	DAO planned for the future

Tokenomics

Fixed Total Supply:	21 billion tokens worldwide.
No Re-Minting:	Protects against inflation and manipulation.
Transaction Mechanism:	<ul style="list-style-type: none">- 0.2% transaction fee- 0.8% automatically redistributed to token holders as rewards
Wallet Limitations:	Initially, a limit of 1,000 tokens per wallet to prevent market manipulation. Adjustments will be made gradually.
No Token Burn or Mining:	Ensures full control over token circulation.

Security & Transparency

Smart Contract Audit:	Fully verifiable, open, and transparent.
Fair Distribution:	No private sales to insiders, no hidden reserves.
Fee Allocation From each transaction:	<ul style="list-style-type: none">- 0.1% is donated to the DDD Party (for development of the digital direct democracy platform).- 0.1% is used by MyAirProtector GmbH for further development and maintenance of the DDD project.

Roadmap (Excerpt)

<u>Quarter</u>	<u>Milestone</u>
Q2 2025	Launch on PancakeSwap (BSC) + ApeSwap (BSC) & Verification on BscScan
Q3 2025	Launch on Uniswap (ETH) + SushiSwap (ETH) & Verification on Etherscan
Q4 2025	Listing on CoinMarketCap & CoinGecko
Q2 2026	Own swap platform for DDD and other tokens
Q3 2026+	Development and launch of DDD Coin (Gold)

Benefits of the DDD Token

Investment Security:	No hidden pre-distribution or additional minting.
Inflation Protection:	Fixed supply.
Political Backing:	Project initiated by the Direct Democracy of Germany party.
Transparency:	Open and auditable smart contract.
Fair Distribution:	Wallet limits at project start.
Passive Income:	Rewards via transaction participation.

Future Outlook - DDD Coin (Gold)

Following the successful pilot project with the DDD Token, the DDD Gold Coin will be launched. It will use the German population as a reference base for its supply and serve as a digital counterpart to Germany's historical gold standard. The goal is to create an independent ecosystem that is autonomous, stable, and resistant to manipulation.

Legal Disclaimer

Investing in cryptocurrencies carries risks. The value of the DDD Token may be subject to significant fluctuations. Investors should be aware of these risks and only invest funds they can afford to lose.
